Skills

Languages: C, Java, JavaScript, TypeScript, SQL, Python

Frameworks & Libraries: React.js, Next.js, Express.js, Tailwind CSS, Bootstrap, Numpy, Pandas, Matplotlib

Backend & APIs: Node.js, RESTful APIs, WebSockets

Databases: PostgreSQL, MongoDB

Tools & Platforms: Git, Github, Docker

Project Work

- **Srijan (2025) — Attendance and Follow-Up Management System:** Github-Link
  - Built a full-stack platform with authentication, RBAC, and REST APIs for attendance and follow-up management.
  - Developed a centralized data system and analytics dashboard, eliminating manual record-keeping.
  - Deployed a production application supporting 100+ internal users with reliable performance.
  - **Technologies Used:** Next.js, React, TypeScript, Tailwind CSS
- **Chatty (2025) — A real time chat application:** Github-Link
  - Programmed a real-time chat application that enables users to communicate instantly.
  - Built with modern web technologies, it enables seamless text and image exchange within 32 customizable themes, offering users a high-performance, visually appealing communication platform.
  - **Technologies Used:** React.js, TailwindCSS, Zustand, DaisyUI,Express.js, MongoDB, Socket.IO
- **BharatDocs (2026) — An Indian Language Word Processor:** Github-Link
  - Built a cloud-based multilingual word processor supporting 15+ Indian languages with real-time phonetic transliteration achieving 200ms latency and 95% + script conversion accuracy.
  - Integrated Anthropic Claude AI, Sarvam AI TTS, and Google Translate API for writing assistance, Indian-accent speech, and bidirectional translation across 22+ languages.
  - Implemented real-time collaborative editing using Liveblocks supporting 50+ concurrent users.
  - **Technologies Used:** Next.js 14, TypeScript, TipTap, Tailwind, Convex, Clerk, Liveblocks, Claude AI, Sarvam AI, Google APIs, Docker

Education

Kalinga Institute of Industrial Technology Bhubaneswar July 2023 - July 2027
B.Tech in Computer Science and Communication Engineering ***CGPA: 8.88/10***
Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Advanced Data Structures and Algorithms

Delhi Public School Bokaro Steel City July 2022
XII(CBSE) ***Percentage: 95.6***

Achievements

- **Data Structures & Algorithms:** Solved 350+ problems on various coding platforms like Leetcode, GFG & Codeforces
- Supervised Machine Learning: Regression and Classification — Coursera (DeepLearning.AI, Stanford)

Position of Responsibility

KSHITIJ - KIIT Spiritual Society Dec 2025 – Present

Founding Member & Technical Lead

- Co-founded and scaled a student-led society to 30+ members within 3 months.
- Led development of the society's website and digital systems, streamlining communication and event coordination.
- Organized 3–4 events and served as Organizing Committee Member at KIITFest 9.0 - large-scale university event.

Federation for Entrepreneurship Development, KIIT (FED KIIT) Nov 2024 - Jan 2025

Technical Team Member

- Collaborated with senior technical executives and technical directors to organize and execute technical events.
- Contributed to the FED KIIT website for the GSOC 2025 Webinar, which guided over 100 participants on contributing to open-source projects.
